Education

Lovely Professional University, B.Tech in Computer Science | CGPA: 7.0 Oct 2022 – Jul 2026

Relevant coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP

Experience

Full Stack Developer | Klarone 2026 – Present

- Built **klarone.in**, an e-commerce platform for new and certified refurbished laptops, with a product catalog, detailed product pages, and transparent **condition grades and warranty** information.
- Developed an **AI-powered laptop advisor ("Find My Laptop")** that matches users to the best machines based on their budget, workflow, and performance requirements.
- Designed and shipped the end-to-end product, including the responsive landing experience, shop flow, services pages, and a WhatsApp-based B2B inquiry flow.

Full Stack Developer | Helmer — TipTop Restaurant Apr 2025

- Architected full-stack restaurant platform with **3 dashboards** & **20+ UI components** using React.js/Node.js/Express.js with JWT auth.
- Modeled MongoDB schemas & built **15+ REST APIs** for menu/order/delivery lifecycle across **3 user roles**.
- Optimized API response times by **35%** and page load by **40%** via query optimization, lazy loading, and Tailwind CSS.
- Collaborated with **4-member team** to deliver production features with reusable component architecture.

Projects

LaunchFast – SaaS Boilerplate | Link Oct 2026

- Built a production-ready **Next.js 16** SaaS starter kit with auth, payments, and email pre-wired, designed to save developers about **3 weeks** of repetitive setup.
- Integrated **Supabase** Auth (email/password + **Google OAuth**), **Stripe** subscriptions with customer portal and verified webhooks, and **Resend** transactional emails, plus a protected dashboard with plan-gated components.
- Launched it as a paid product with a live demo, **Razorpay** checkout (cards, UPI, net banking), and private GitHub repository delivery to buyers.

Transportation Data Collection & Visualization Platform | SIH 2025 Sep 2025

- Built React Native mobile app and **3 React.js** web panels with Node.js/Express.js REST API serving **500+ concurrent users**.
- Designed MongoDB schema for **10,000+ trip records** with geospatial indexing; built Leaflet heatmaps and OD matrix dashboards.
- Developed polygon region selection, time filtering, PDF reports, and interactive geospatial dashboards.

Technical Skills

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, React Native, HTML5, CSS3, SASS/SCSS, Tailwind CSS, Redux, React Hooks, Webpack, Vite

Backend: Node.js, Express.js, REST APIs, WebSockets, Supabase, Firebase, JWT Authentication, OAuth (Google), RBAC, MVC, Redis, PostgreSQL, MySQL, MongoDB, Mongoose

Integrations & Other: Stripe, Razorpay, Resend, Git, GitHub, CI/CD, Docker, Postman, Linux, Jest, Java, OOP, Data Structures & Algorithms, System Design

Certifications

Approximation Algorithms and Linear Programming — Coursera | Link Apr 2025

Security and Privacy in Online Social Media — NPTEL | Link May 2024
